

Windows Virtual Desktop Support

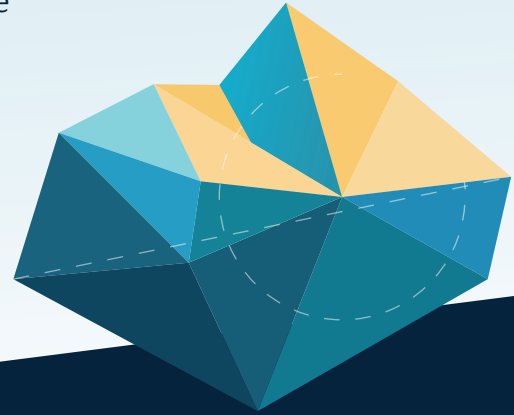

Complete support to keep you productive

By investing in Windows Virtual Desktop WVD you've provided users with the very best in VDI technology and modern working experience across any device in any location.

But how do you ensure that your organisation makes the very most of the technology available to them?

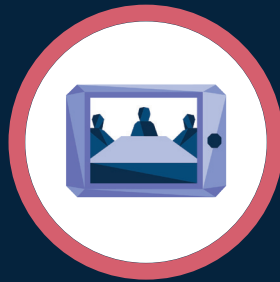

Support by the Experts

Cloud Direct's WVD support service is a complete support solution that operationally supports your Azure WVD environment whilst additionally supporting your end users across WVD and Microsoft 365. This service will keep your users as productive as possible whilst helping you to extract the most value from your solution.

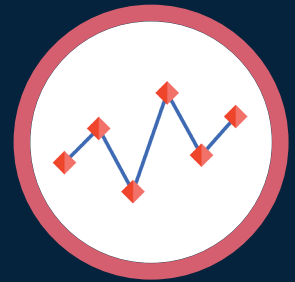

WVD environment support

Unlimited round the clock support of your WVD environment. Our service teams will help you to ensure that your environment operates as it should whilst maintaining it as a secure and cost effective platform.

M365 admin & user support

M365 is a critical part of your users every day tool kit. Keep them productive and help them to make the most of their tools with unlimited support, training and guidance for all elements with your M365 licencing.

Best practice guidance

As Azure and Modern Work experts we guide customers on how to obtain the most value from their technology. This service is no different, from regular reviews to annual strategic planning. We will help to make your WVD sing.
